

My name is

The names of the people  
in my family are:

This is what I think about  
play dates with my friends:

This is a picture of my family.

Here are some fun facts about my family:

Dear C.C.S. Family,

To help facilitate connections among our students, we would love if you would share with other C.C.S. families a little bit about your family. If you complete the Meet my Family information on other side of this sheet and bring it back into school to give to your teachers, we will place it in a special album in your child's locker area.

Since the Meet My Family albums will be accessible to all C.C.S. families and staff, please only write down what you are comfortable sharing about your family. In both the picture and the space for family member names, please feel free to include grandparents or pets or others that help make up your family circle. In the section for fun facts about your family, you can write in anything you want to share with other families; examples might be what the adults do in their careers, personal hobbies, family interests or where your family has lived before.

We look forward to learning more about you.

Sincerely,

Your C.C.S. Teachers
