

Digestion and Nutrition Study Guide

Your task is to create a collage of the digestive system and identify where all nutrients are digested and absorbed. (Some are digested in more than one location).

Identify and

* Include an enzyme that is secreted:

- *Mouth
- Tongue
- Pharynx
- Esophagus
- *Liver
- *Gall bladder
- *Stomach
- Pyloric sphincter
- *Duodenum
- *Jejunum
- *Ileum
- *Pancreas
- Villi
- Colon (large intestine)
- Rectum

Nutrients:

- Fats/lipids
- Carbohydrates
- Starches
- Proteins
- Alcohol
- Water

Mechanisms of digestion (where do these occur?):

- Peristalsis
- Mechanical digestion
- Chemical digestion
