# Homework Guidelines

1. Include a COMPLETE heading on all homework assignments.

| | |
|---|---|
| Your Name | Class ID# |
| Class (Science 7-A) | Date |

Write out assignment title (example read pp.100-105, SRQ's 1-3)

2. Complete all **daily** homework assignments in your bellringer (marble composition) notebook unless otherwise instructed. If they are not in your marble composition notebook, you **will not** get credit. No exceptions…No excuses.

3. Write legibly in **blue** or **black** ink, I **will not** accept any other crazy colors. Homework may also be completed in pencil if you prefer. If I cannot read your homework, I cannot give you credit.

4. Answer all questions in complete sentences. Begin your answer by restating the question in your answer. For example, if the question asks you to list the three major parts of the brain, and describe their functions, begin your answer with "The three parts of the brain include the cerebrum…." You **will** lose points for incomplete sentences.

5. Do not copy another student's homework. You will receive an automatic zero if you copy another student's homework. The student who supplied the answer will also receive a zero. Copying homework is called **CHEATING** and will result in negative consequences for all parties involved.

6. Homework is not busy work. It is assigned to help you better understand the material we are learning in class. Completing all of your homework will not only help you understand the material, but will give you a great homework average, which will help boost your overall science grade.

Cut and return to Mrs. Roberts

Please fill out the following:

I have received, read, and discussed the above information regarding homework. I understand that homework is essential to success and hereby agree to do my homework as assigned.

Student's Name:_____

Student's Signature:_____ Date _____

Parent's Signature:_____ Date _____
