

NAME: _____
(print please)

Welcome! Trust me, Chemistry II is survivable, we will have lots of fun. For your first nights homework (I have to keep you busy), please read through and complete the following.

1. Have you and your parents sit down together and read through the syllabus and parent letter. Sign below to acknowledge you both have read through each. You do not need to return these to items.

Due
8/28

(Parent signature)

(student signature)

2. Please read through the donations form. If possible, any donations above \$5 would be greatly appreciated. If you do not want to give money, the following items are always needed and appreciated.

Due
9/7

- Paper towels
- Aluminum foil
- Plastic baggies (ziplock – quart or gallon size)
- Tissues
- Cleaning spray (clean up of labs, etc...)

3. Safety contracts. Read through, it is the same as last year – yellow is for you to keep – white is for me. On the WHITE copy only, print student name at top, sign student name in the middle, parent sign at the bottom, and be sure to print any allergies you may have. Turn in white copy with this sign sheet.

Due
8/28

4. Laminated sheet. This is a formula chart that you will come to cherish. Please purchase a three ring binder, and place this in the front. Do not lose this.

Due
8/28

5. Please sign AP contract – turn in with this signed sheet.

Due
8/28

6. Complete pretest. Include formulas for those math problems. Don't worry this is not a grade for accuracy, but it is for your first completion grade. This will be reviewed – so don't worry.

Due
8/28

7. Print name clearly with marker on the label of your lab folder. Place all material due 8/28 in folder and return to me.

Thanks – looking forward to a great year!

MJ Viscardo
