You need to have read all of the poems on these pages and be able to answer all of the questions about the poems on the pages that follow...also each set of poems teaches about certain poetry terms, make sure that you know those terms and how that poem teaches that term.

Basically, be an expert in these poems.

Do not just assign this as homework - you need to do this work as a group also, divide your time up, so that you're doing your group assignment for half of the time and this work for half of the time each class period.
