

# Visual and Performing Arts Assessment Results

The state of Ohio requires districts to provide opportunities for gifted identification in academics as well as the four visual and performing arts areas. This collaborative assessment was designed to meet that mandate in the best possible manner.

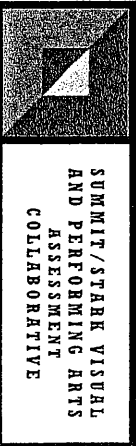

The results from today's assessment will be sent back to your district for distribution. If you have any questions or concerns, please contact your district's gifted and talented coordinator.

The enrichment opportunities mentioned in this brochure are not endorsed by our collaborative. They are provided as a possible source of visual and/or performing arts enrichment for your son or daughter.
